Updates on disputes/regulatory action: In furtherance to our communication dated July 28, 2021, and the opinion received from Company's legal counsel, the Board today at its meeting discussed this matter and is of the view that the services of purchase of Bulk SMS by the Company from foreign telecom companies, which are supplied to foreign customers through servers located outside India, should not be leviable to GST, as the place of supply of services is outside India. The said purported liability under reverse charge mechanism (RCM) is not applicable to the Company as the complete performance of the service is located outside India, and, hence Interest is also not applicable. Notwithstanding the above, the Board also noted that input tax credit is available on any GST paid under the reverse charge mechanism, and that the same is a completely revenue neutral situation. In light of the same, Board has decided that the Company should deposit the GST liability under the reverse charge mechanism and consequent input tax credit should be claimed
